THE PROBLEM

01 TIME-CONSUMING SEARCH

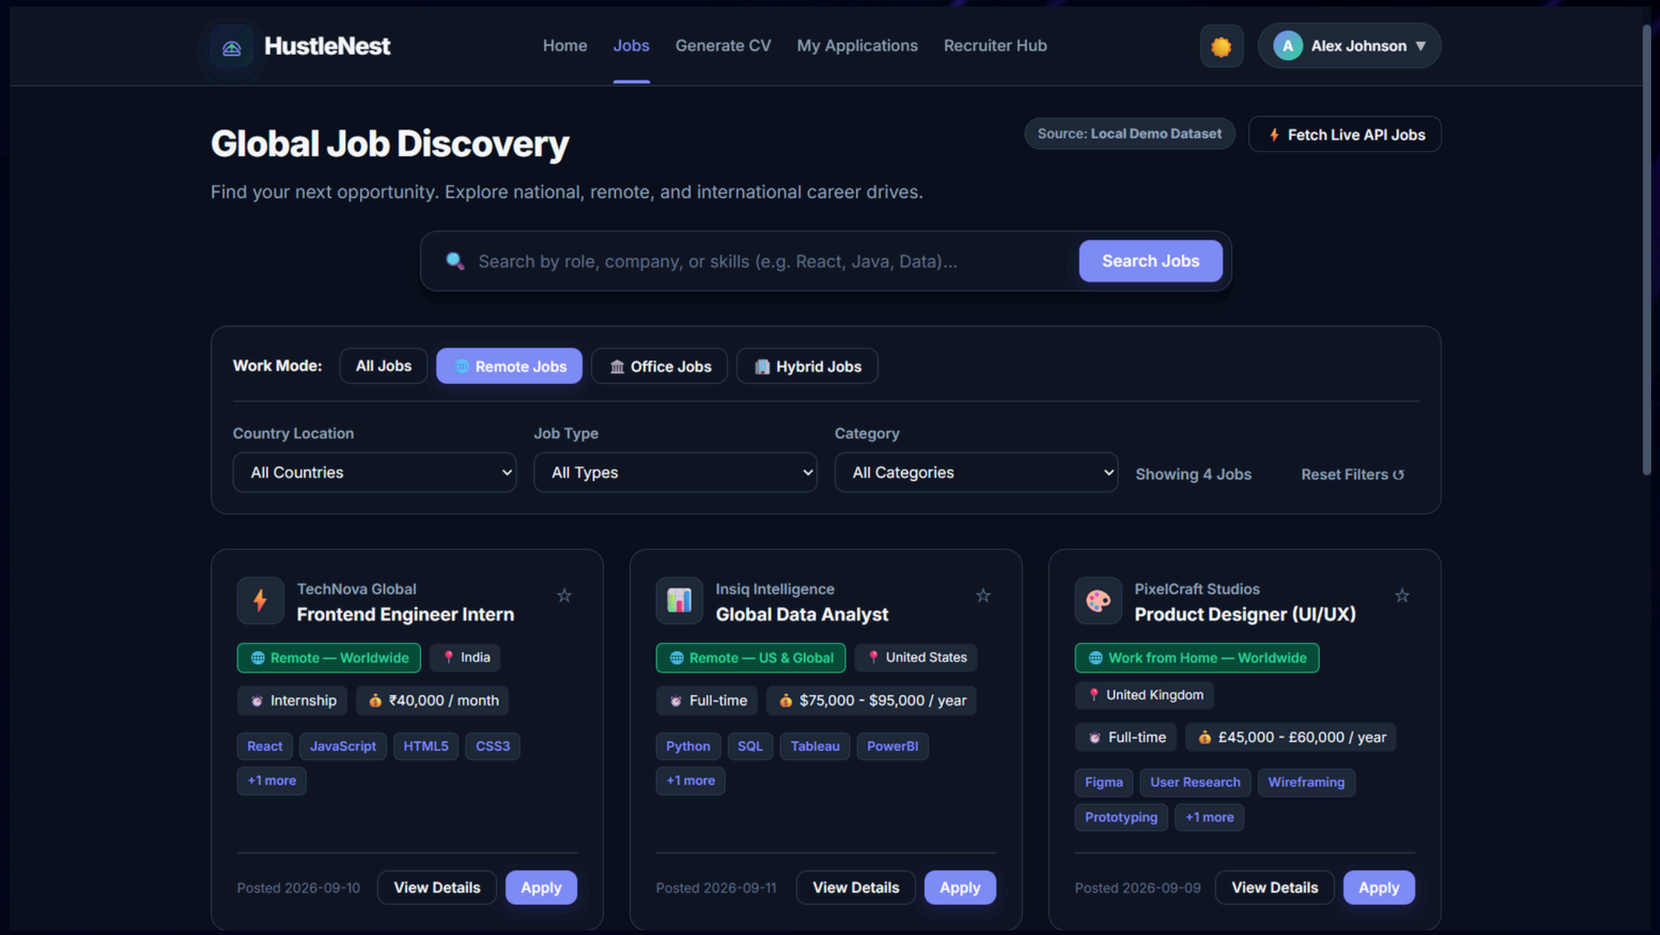

Finding suitable jobs requires browsing through countless listings.

02 HARD TO MANAGE

Tracking saved jobs and submitted applications is scattered and difficult.

03 RECRUITER CHALLENGES

No easy way to post jobs and manage candidates in one dashboard.

A SINGLE UNIFIED PLATFORM CAN SIMPLIFY THIS ENTIRE PROCESS.

PROJECT INTRODUCTION

01

FOR JOB SEEKERS

Search, filter, save, and apply for jobs — all in one place.

02

FOR RECRUITERS

Post job openings and manage applications with ease.

03

SIMPLE EXPERIENCE

Clean, user-friendly design for everyone.

Project Objectives

01

Easier Job Search

Keyword-based search with fast, relevant results.

02

Smart Filtering

Narrow results by location, type, salary, and more.

03

Simple Applications

Apply for jobs directly through the platform.

04

Profile & CV Tools

Build and manage your professional profile and CV.

05

Save Jobs

Bookmark interesting listings to revisit later.

06

Recruiter Dashboard

Tools to post, manage, and review job applications.

TARGET USERS

01 JOB SEEKERS

- Search and browse job listings
- View full job details
- Save favourite jobs
- Apply for positions
- Manage profile and CV
- Track application status

02 RECRUITERS

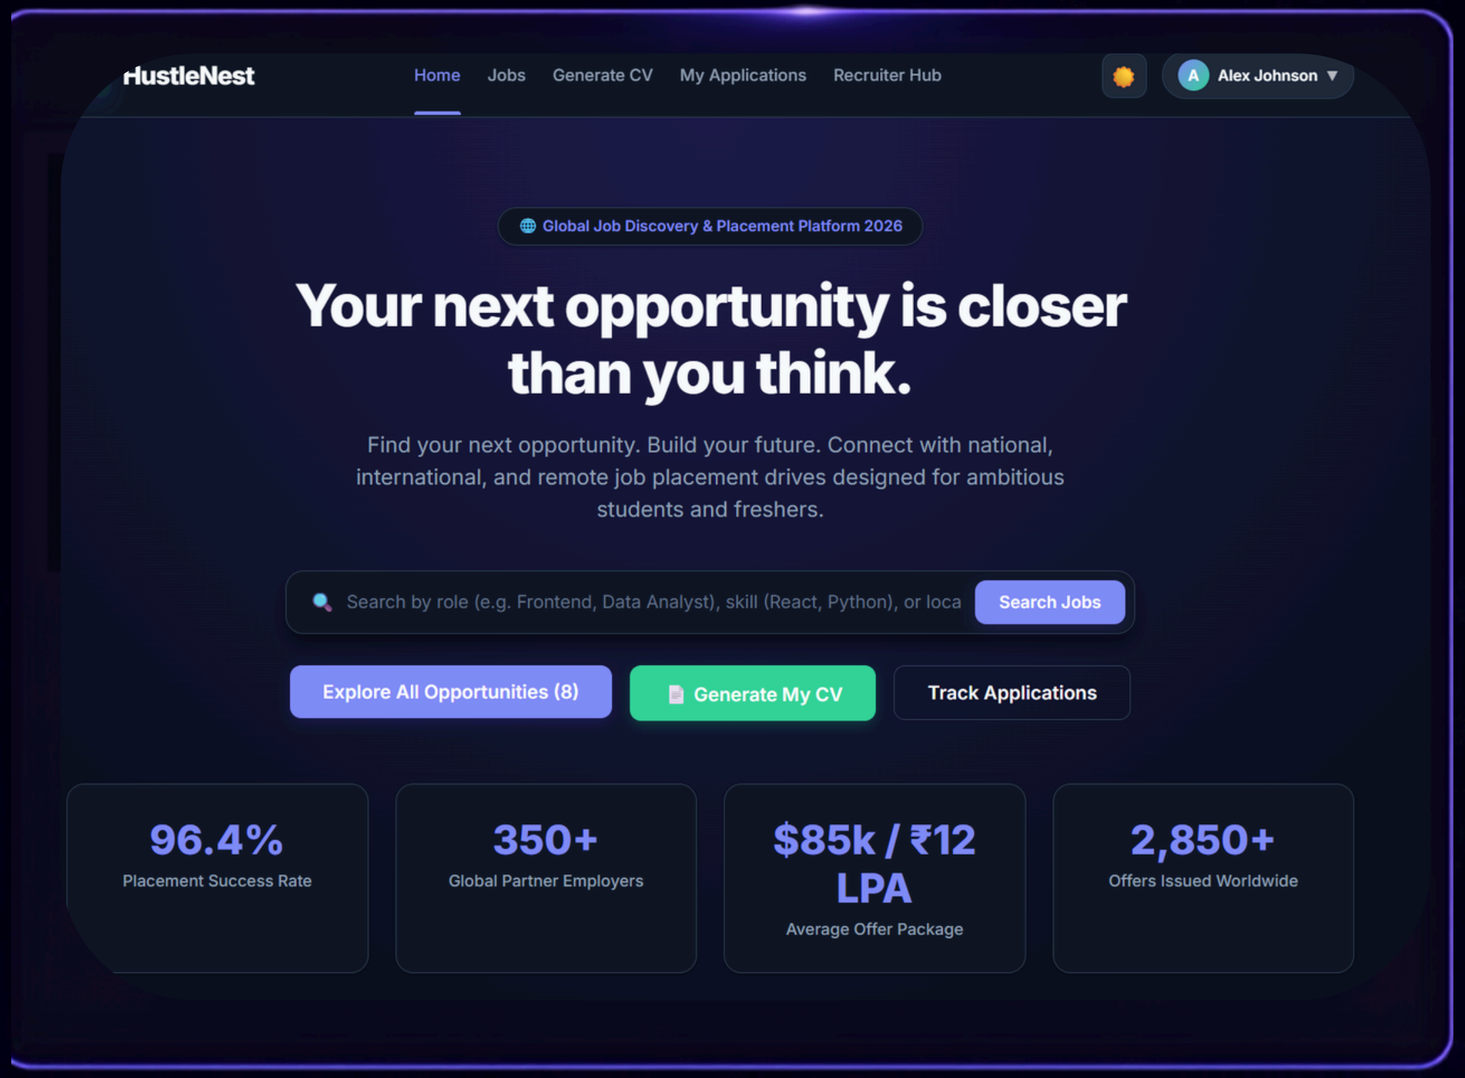

- Post new job openings
- Manage existing job listings
- View incoming applications
- Manage and review candidates
